## SELF DUMPING HOPPERS

### STANDARD FEATURES

#### Solid Welded Interior

All of the interior seams are fully welded to ensure your material stays where it is supposed to be.

#### 10 ga Body and 3/16" Base

All of our self dumping hoppers are made from CSA approved materials. Our hoppers are built to endure challenging work environments.

#### Tab and Slot Construction

CNC tab and slot construction ensures an accurate fit every time.

#### Self Tipping Action

With an easy to pull latch design, hoppers will self tip once the latch mechanism is released.

**3/4 Cubic Yards**  
36"H x 41" W X 56" L  
Weight - 525 lbs

**1 Cubic Yard**  
36"H x 53" W X 56" L  
Weight - 678 lbs

**2 Cubic Yards**  
47"H x 65" W X 73" L  
Weight - 827 lbs

**3 Cubic Yards**  
58"H x 65" W X 90" L  
Weight - 1034 lbs

**4 Cubic Yards**  
80"H x 43<sup>3/4</sup>" W X 56" L  
Weight - 1615 lbs

SCS hoppers are manufactured above industry standard.  
Reduce your maintenance costs & maximize uptime.

## AVAILABLE OPTIONS

### 3/16" Body Upgrade

Increase the strength and durability of your hopper with a 3/16" body upgrade.

### 1/4" Base Upgrade

Increase the strength and durability of your hopper with a 1/4" base upgrade.

### Aluminum Sliding Lid

A light weight, robust, powder coated sliding aluminum lid option keeps unwanted materials and critters out of your hopper.

### Inner Epoxy Coating

Is your product eating away at your hopper? Epoxy coatings can save your hopper from harsh corrosive materials.
