

MANUFACTURING INC

FLAT DECK ROLL OFF CONTAINER

STANDARD FEATURES

Headache Rack

To ensure the safety of your driver, SCS provides your choice of a heavy duty 36", 48" or 60" headache rack on every flat deck we manufacture.

Reflective Tape

Another standard safety feature is high visibility reflective tape, to ensure maximum visibility on the job site.

Steel Decking

For maximum strength and durability, you can choose to have steel decking installed on your flat deck.

Tongue & Groove Fir Decking

Alternative to our steel decking we also offer a tongue & groove fir decking option.

Stake Pockets

Our stake pockets provide even more versatility when it comes to what you can haul and how you can secure your load.

SCS bins are manufactured to the highest quality standards. This reduces maintenance costs & increases productivity.

AVAILABLE OPTIONS

Fixed Beavertail

The Beavertail is a fixed extension on the rear frame of the trailer that is angled downward which can be helpful for loading.

Fold Down Ramp

Customize your SCS Roll Off Flat Deck with detachable fold down ramps for easy loading and unloading of your equipment.

Winch Mount

Add a protective housing mount for your winch and improve your flat deck's versatility.

D-Rings

Need extra tie down points to secure your load? Add D-Rings to the exterior frame of your flat deck.

Chain Hanger

Do you need a place to hang your chains? Add our heavy duty chain hanger to store your extra chains safely and efficiently.

Recessed D-Rings

Need extra tie down points on the deck floor? Recessed D-Rings can be added to the trailer deck as another tie down option.
